

We at UniKwan anticipate and craft meaningful digital experiences for the future.

Our Design services and value proposition are:

1. Strong Service Design & User-Research oriented team:

Refined products and services in the digital domain and enabled our clients to reach more customers through our user-research.

2. User experience design & User Interface:

We have executed more than 50 UX/UI projects in India and across the Globe.

Our recent project on UX/UI is ATYATI, last-mile banking services for the rural population of India.

3.Video Production & Product explainers:

Helped more than 30 start-ups in INDIA and US with early stage validation of products and ideas for funding and launch through our videos and domain expertise.

Our new video RareRabbit, a men's apparel brand. Playing in the theater.

Our video for an award winning tech start-up called LensBricks. Motion explainers: www.vimeo.com/unikwan

4. Extended Design capacity:

We are providing an extended design capacity for companies and start-ups.

From past 5 consecutive years, we have been closely associated with the design needs of NAGRA, A Switzerland-based digital TV and interactive company.

5. Usability:

Reliable Usability lab to get more insights on user's behavior.
